Projects Undertaken:

1) **Title:** Urban News Monkey

Description: News Monkey is an interactive and responsive news web application that provides all the latest news from around the globe. Developed using ReactJS and News API, News Monkey offers news on a wide range of topics, including business, politics, sports, entertainment, science & technology, and more

Technology Used: ReactJs , Javascript , HTML, CSS, Google News API

2) **Title:** Personal PortFolio

Description : A personal portfolio website is a professional website that provides information about what you do, what services you may offer, and how to contact you or your company. Portfolio websites are an easy way to promote yourself, your brand, or your business. You'll increase your visibility for clients, managers, or employers to find you organically. Essentially, it's a digital business card and project portfolio all in one that's accessible, sharable, and drives results.

Technology Used: Javascript , HTML, CSS,
